

Sprint Planning Meeting Minutes (1/12/2026):

Attendees: Monica Barbosa, Kristian Correa, Gabriel Garcia, Marcelo Hernandez

Start time: 1/12/2026, 7:00 PM

End time: 10:00 PM

After discussion, the velocity of the team was estimated to be 30 points/sprint, totalling 210 for 7 sprints.

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

1. **Based on Research:** As a user, I would like the app's predictive features to be rooted in research, science, and trustworthy public datasets so that I can be confident in the app's usefulness as a period tracker.
2. **Privacy Focused:** As a privacy-conscious user, I would like to know how my data is used, have the agency to choose which specific pieces of data are used, and the ability to export it in a reasonably common format so that I can feel confident my personal health data remains private and under my control.
3. **Modern Application:** As a user, I would like it if the application used modern, secure technologies so that I can feel secure with my data and the application will be performant.

The team members indicated their willingness to work on the following user stories.

- Gabriel Garcia
 - 3. Modern Application
- Kristian Correa
 - 1. Based on Research
- Marcelo Hernandez
 - 2. Privacy Focused
- Monica Barbosa
 - 1. Based on Research
